

FIRST MEETING PEACE
LEAGUE HELD IN PARIS

Leon Bourgeois is Elected President in Absence of the President.

Paris, Jan. 16.—Representatives of France, Great Britain, Italy, Greece, Belgium, Spain, Japan and Brazil members of the Council of the League of Nations, met in the "Clock Room" of the French Foreign Office at 10 o'clock this morning for the first meeting in the history of the League.

The Council organized at 10:30 o'clock by electing Leon Bourgeois chairman and confirming the choice of Sir Eric Drummond of Great Britain as general secretary.

The first official act of the Council was to trace upon the spot the frontiers of the territory of the Sarre Basin.

The council of the League of Nations received the first formal protest to be presented to it almost before it came into being with today's initial sessions. The protest was from "the envoys of the elected Government of the Irish Republic against 'the unreal English simulation of an international league of peace'."

Wilson Was to Preside . . . Leon Bourgeois, French representative, who presided, said:

"The task of presiding at this meeting and inaugurating this great international institution should have fallen to President Wilson. We respect the reasons which still delay final decision by our friends in Washington, but express the hope that their difficulties will soon be overcome and that a representative of the great American Republic will occupy the place awaiting him among us. The work of the Council will then assume definite character and will have that particular force which should be associated with our work."

January 16, the date of the birth of a new world. Decisions to be reached today will be in the name of all nations adhering to the covenant of the League. It will be the first decree of all free nations leaguing themselves together for the first time in the world to substitute right for might. But the organization of the League of Nations will not be complete until the assembly of all the States meets."

Britain Hopes For New Era . . . Lord Curzon, British Secretary of State for Foreign Affairs and the nation's representative on the Council of the League, said:

"On behalf of the British Empire I desire to express the loyalty of my Government and the external dominions of the British crown to the spirit underlying the covenant of the League of Nations. It is our intention by every means in our power to insure its practical efficiency. It is our firm belief that through its instrumentality alone we can hope to insure that such miseries that the world has experienced during the past five years shall not be repeated and that a new era of international relationship shall dawn."

"The League of Nations is an expression of the universal desire for sauer methods of regulating affairs of mankind and provides machinery by which practical effect may be given the principles of international friendship and good understanding. The success of the labors of the Peace Conference is a good augury for the future of the League of Nations. For the first time an attempt was made to bring together under the auspices of the League representatives of Governments, employees and laborers, an advance exceeding the results of the entire work of the previous quarter of a century has been made in the field of international action on industrial questions."

Members of Council Present . . . All the members of the council called for by the covenant of the league with the exception of the representatives of the United States, were present when M. Bourgeois called the meeting to order. In addition to M. Bourgeois the members were Earl Curzon, the British Foreign Secretary for Great Britain; Premier Venizelos, for Greece; Carlo Ferraris, Italian Minister of Industry, Commerce, Labor and Food, for Italy; Paul Hymans, the Belgian Foreign Minister, for Belgium; Paul

oh Matsui Ambassador to France, for Japan; Dr. Castoa a Cunha, Ambassador to France, for Brazil; Count Quinones de Leon, Ambassador to France, for Spain.

Premier Lloyd George of Great Britain and Viscount Grey dropped into the meeting at an early stage. Mr. Lloyd George soon retired, however, Viscount Grey remaining. He was invited to a front seat.

Premier Venizelos, without rising, opened the proceedings by nominating M. Bourgeois for chairman. Lord Curzon seconded the nomination and M. Bourgeois was unanimously elected. After speeches by M. Bourgeois and Lord Curzon, Signor Ferraris, on behalf of Italy said his nation was glad to respond to the invitation "of the President and the great American people." He mentioned the skepticism amidst which the league was born and said this was a fact to be neither exaggerated nor ignored. He added that among the duties of the league would be to give attention to the high cost of transportation, the high cost of living and the state of international finance.

JUDGE MACK COOK AP-
POINTS TAX SUPERVISORS

The men whose names appear below, have been appointed Tax Supervisors for Ohio County for 1920, by Judge Mack Cook.

Clarence Dennis, Beaver Dam; C. I. Maxey, Hartford; Nat Lindley, Centertown; John Davis, Bartlett; J. N. Moore, Rockport; Virgil Matthews, Fordsville; N. B. White, Sulphur Springs; John L. Miller, Rosine.

PREDICTS HOT RACE

Aspirants for judicial nominations are already being groomed in several districts in the state, and a lively contest is promised in the Sixth district, composed of Daviess, McLean, Ohio, and Hancock counties, where Geo. S. Wilson, of Owensboro, and

as sure starters for the nomination for circuit judge. The present occupant of the bench, Judge Robert W. Slack, of Owensboro, is a Republican, having surprised the knowing ones in 1915 by defeating Judge T. F. Birkhead for the judgeship in a normally Democratic district.—Will Kaltenbacher in Louisville Times.

REV. STEVENS ACCEPTS CALL

The Louisville Courier-Journal says:

"The Rev. C. D. Stevens, Hartford, Ky., has accepted a call to the Twenty-second and Walnut street Baptist church. He will begin his work February 1. The Rev. Mr. Stevens is a brother of the Rev. F. C. Stevens, pastor of Clifton Baptist church. The pulpit of the Twenty-second and Walnut street church was vacated by the Rev. W. B. Nowlin, who left September 1 to fill the pulpit of the First Baptist church, Greenville, S. C. The new pastor is an evangelist on the Baptist state board."

ADVISORY BOARD APPOINTED IS COMPOSED OF LADIES . . . Something new in the way of an Advisory Board has been inaugurated by the County Judge. This Board will be composed of ladies and their duty will be to make investigation in juvenile and domestic trouble cases and give advice to the court. This plan has been in successful operation in many places for years has proven successful.

The law authorizes the appointment of as many as 10 members but up to this time only three have accepted. Others will be named later. Those selected are: Mesdames W. S. Tinsley, John B. Wilson and J. H. B. Carson.

PHONE COMPANIES ARE
INDICTED BY GRAND JURY

Bowling Green, Ky.—The Bowling Green Home and the Cumberland Telephone Companies were indicted today by the grand jury on a charge of maintaining a nuisance. The indictment charges the companies as having failed to render service required of them by employing unskilled labor, failure to get proper service, answering calls by patrons when illness prevails in homes, etc.

Great Things Planned For
Famous Old Transylvania

College of Bible and Hamilton College
Included in Kentucky Disciples' Forward
Step to Enlarge the Equipment of these
Noted Institutions of Learning at Lexington

For the maintenance of its educational place, so long occupied among America's leading educational institutions, Transylvania, Lexington, Ky., is to unite with the Disciples of Christ of the State, and its thousands of friends throughout the country in a vigorous campaign for the imperative enlargement of its equipment and for an adequate compensation of its faculty.

The College of the Bible, for the training of men and women for the ministry, and Hamilton College, the Junior College for Women, will share in this campaign, which is to be conducted as a part of the inter-church World Movement.

Up to the time of the starting of the inter-church World Movement financial drive, Transylvania and its friends will conduct a campaign of education, in order that the urgent needs of these institutions may be so well understood as to be a foregone conclusion.

One of the first needs of the institution is a fire-proof building to house its priceless

library, worth more than a hundred thousand dollars, and which if destroyed by fire could not be replaced. Another aim is the increase of the salaries of the professors to a living standard, making it possible to hold its present faculty, and to command the very best available material for increasing its teaching force. Another aim is the continuance of the progressive policies so long maintained by this historic college.

Many other first rank colleges throughout the country have already taken steps to avert a crisis in educational affairs. With the increased cost of everything, it is absolutely impossible for institutions of learning to exist on the basis of former support.

There is also a widespread conviction of the necessity of the maintenance of the college under distinctive Christian influences. An investigation made a few years ago revealed these significant facts:

Eight of the nine Justices of the Supreme Court of the United States were college men; seven of the eight were educated in Christian colleges. Eighteen of the twenty-six Presidents of the United States were college men; sixteen of the eighteen were from Christian colleges.

Transylvania, the Pioneer College of the West. 1785.

Eighteen of the twenty-six recognized masters in American Letters were college men; seventeen of the eighteen were from Christian colleges. Of the members of Congress in 1905 who had received a college education, and

How, Champ Clark, a product of Transylvania's achievements gave them a place in "Who's Who in America," two-thirds were graduates of church colleges.

Transylvania and the College of the Bible have educated one president, two vice-presidents, the president of the Southern Confederacy; also secretaries of state, treasury, post master-general, attorney general, scores of United States senators and congressmen; a Speaker of the House; ministers to many foreign countries; governors of a large number of states; mayors of large cities; authors of national and international reputation; physicians and surgeons of world-wide fame, and thousands of ministers and missionaries of the Christian religion.

Dr. Richard H. Collins, the historian of Kentucky, characterizes its graduates "as statesmen, jurists, orators, surgeons and divines among the greatest in the world's history—men of mark in all the professions and callings of life."

Miss Norine Elizabeth Black and Mr. Clarence B. Igleheart were united in marriage at 1 o'clock on January 15th, at the home of the bride on Clay street by Rev. E. Watt Smith of the Methodist church. Besides the immediate family of the bride, those present were Mr. and Mrs. L. S. Igleheart, Miss Anna Riea Carson and Mrs. Helen Igleheart, of Hartford, and Mrs. Stevens, of Greenville. The bride wore a handsome spring suit of blue and gray with hat and shoes to match. Immediately after the ceremony, the couple left for French Lick Springs, returning last Sunday.

Mrs. Igleheart is the daughter of Mr. and Mrs. T. H. Black and a young lady of refinement, well liked by all who know her. Mr. Igleheart is the son of Mrs. Helen Igleheart, of near Hartford, and is one of the community's most popular young men. For the present they will make their home on Mr. Igleheart's farm near this city.

BENNETT—ALLEN

Miss Willye Bennett and Mr. Eugene Lowe Allen were united in the holy bonds of matrimony at the home of the bride near Hartford at 1 p. m. Sunday. Rev. Russell Walker, pastor of Hartford Baptist church officiating. Quite a number of friends were present to witness the ceremony. Immediately after the wedding, the couple left for Mr. Allen's country home a few miles from Hartford.

The bride is the daughter of Mr. and Mrs. Edwin P. Bennett and a very popular young lady. The groom is one of Ohio County's most energetic young farmers, well liked by all who know him.

The Herald joins the many friends of the newly weds in wishing them a very very pleasant journey together through life.

OHIO COUNTY MISS
ASSISTS AT ENTERTAINMENT

Mr. and Mrs. Loyd G. Leachman, of near Calhoun, were hosts Saturday night, at a delightful entertainment which was a combination dance, pound supper and card party. Those assisting at the supper were: Mesdames L. G. Leachman, Wick Hemingway, Felix Robertson, Roger T. Tichenor; Misses Anna Smith, Edna Black and Virginia Lytle. More than 100 guests were present.

RESIDENCE DE-
STROYED BY FIRE

A residence on the farm of Mr. Joe T. Miller, 4 miles from Hartford and about 1 mile from William's Mines, was destroyed by fire last Friday night at about 8 o'clock. The residence was occupied by Mr. Jim Smith and his household goods as well as the building were a total loss, there being no insurance. The cause of the fire was a defective joint in a stove pipe.

MRS. A. E. JOHNSON, Hartford, Ky., R. F. D. No. 2

At a recent meeting of the Circuit Judges of Kentucky, held at Louisville, Judge J. R. Layman was elected President and Judge R. W. Slack Vice President.

Several Ohio County farmers will make the trip to Lexington for the farm and home week Jan. 27 to 30. They will be accompanied by Farm Agent, M. L. McCracken.

Mr. J. H. Miles, of Paradise, formerly one of Ohio County's magistrates, was a pleasant caller at this office while in town Monday. Mr. Miles spent the night with Judge John B. Wilson.

Miss Maud Maddox, of Beaver Dam, who went to Louisville last week, accompanied by her sister, Mrs. W. C. Blankenship, has returned home after undergoing a successful operation for tonsillitis.

County Farm Agent M. L. McCracken, returned Monday, from Rockville, where he had spent several days inspecting stock and advising farmers as to soils, crop rotation etc.

Mr. N. A. Schroeder has installed the machinery for a broom factory in the building near Dr. Bean's drug store. We welcome any such industry that tends to lower the H. C. L.

Mr. Emmett Park and wife, of Detroit, Mich., spent a day last week with Mr. and Mrs. J. B. Tappan of this city. Mr. Park left Hartford about five years ago penniless but has made good in the northern city. Among other property he possesses a \$9000.00 home.

Rev. W. H. Foreman has sold his residence on Clay Street to C. B. Carden and has purchased a house and lot of Mr. Roam Smith in Fordsville. The consideration for the latter property being \$2000.00. Mr. Carden's son, Leslie, will occupy the residence purchased by his father. Rev. and Mrs. Foreman will move to Fordsville within a few days.

REVIVAL STILL IN PROGRESS.

The revival which began Sunday, Jan. 4th at the Hartford Methodist church is still in progress and is increasing in interest at every meeting. Rev. Bascom Waters, the evangelist, is delivering some of the most powerful sermons ever heard in the Hartford Methodist church. There have been a goodly number of professions.

No revival is a decided success without good music, and this is something the present revival has in abundance. Mr. Joe M. Hampton, leader of the song service is a vocal musician of rare ability, and Miss Hanson, the pianist, is a wonder in her line.

The special service for men at 2 o'clock last Sunday attracted what is said to have been the largest audience of men that ever attended a church service of this kind in Hartford.

PASSENGER TRAIN ASSURED
FROM ELMITCH TO CLAY

M. H. & E. Will Now Be Of Benefit to Traveling Public.

It is now practically an assured fact that the L. & N. R. R. will at last run a passenger train over the M. H. & E., the service to begin January 26. This train will operate between Elmitch and Clay, Ky., leaving at 8:10 and returning at 6:30 p. m., thus it will be due at Hartford at about 8:50 a. m. and 5:50 p. m. The mixed train now in this service will be used only for carrying freight.

The Providence Enterprise publishes the following letter to the Mayor of that city, regarding the new train service:

Louisville, Ky., January 11, 1920.

Hon. R. W. Hunter, Mayor of Providence, Ky.

Dear Sir: I regret very much that I was absent from the city when you called about two weeks since for the purpose of discussing train service between Providence and Madisonville.

However, the matter has had careful consideration and in lieu of the re-establishment of the mixed train service formerly operated into Madisonville, which would be quite objectionable, it has been decided to establish straight passenger train service between Elmitch and Clay via Madisonville which will, I think, fully meet the wishes of the people interested. It seems a fore gone conclusion that the revenue to be derived from the proposed service will not be sufficient to meet the expenses, but it is hoped that the schedules in question will provide our patrons with very satisfactory service.

Arrangements have been made to establish the service as promptly as practicable.

Assuring you of our desire to meet the wishes of our patrons in every reasonable and practicable way, I remain,

Yours truly,
W. L. MAPOTHER,
Federal Manager.

LACK OF HORSES IS MOST SERIOUS PROBLEM OF THE COUNTRY

PRODUCTION OF THOROUGHBRED BREDS MUST BE EN
COURAGED

PRESENT SUPPLY IS SHORT

Washington, D. C.—The problem of military horse supply most deeply has been discussed in recommendations to the general staff. It is a problem which the government must obtain and face at the disposal of the country in which horses are in such short supply.

Army Would Need One Animal for Every Soldier.—The general staff of the United States army is organizing a military operation for the purpose of obtaining a supply of horses for the future needs of the army. The operation is being conducted by the War Department, and is being carried out in a most efficient manner.

Present Supply is Short.—The present supply of horses for the army is very short. It is estimated that the army needs one horse for every soldier, and that the present supply is only about one-third of that number. This is a serious problem, and one which must be solved as soon as possible.

Production of Thoroughbred Breeds Must be Encouraged.—The War Department is encouraging the production of thoroughbred breeds of horses. It is doing this by offering bounties on the production of such horses, and by encouraging the breeding of such horses in the United States.

Importation of Horses from Foreign Countries.—The War Department is also considering the importation of horses from foreign countries. It is doing this by offering bounties on the importation of such horses, and by encouraging the importation of such horses into the United States.

The Most Reliable Harvesting and Haying Machines

Chattanooga

The Most Popular Tractors, Plows and Tillage Implements

YOU know these trade names. Your father knew them before you, and your grandfather was familiar with two of them—McCormick and P. & O. They knew in their time and you know today, through long usage and satisfactory service, that there are no better farm machines and implements made than those bearing these trade names, which are guarantees of high quality and operating efficiency.

McCormick built the first practical reaper; Deering sold the first twine binder and introduced binder twine. Wm. Parlin

and the founders of the Chattanooga line were among the earliest plow pioneers. The lines started by these famous manufacturers have been constantly growing since their small beginnings and every new machine and implement that has been added has had built into it the accumulated years of manufacturing experience and farm knowledge acquired by the original founders and their successors.

And now, these time-honored, service-renowned lines have all been merged into one—the International Harvester—the cream of the farm machine world.

We Sell the International Line

What does this mean to you as a farmer? It means, first of all, that you can buy any farm machine or implement you may need, right here in this town, without taking chances on experiments or implements that might be "orphaned" one or two years after you buy them because of the manufacturer going out of business. You can always get repairs for any machine or implement in the International line because the Harvester Company will never go out of business. You are assured of reliable machines because every machine in the Harvester line is tried out and tested under actual farm conditions, before being offered for sale to the farmer. The Experimental Department of the Harvester Company is the most thorough and active institution of its kind.

It means, second, that you can get repairs and repair service

on all of these machines through one concern—us. You don't have to go to the bother and inconvenience of trying to get repairs and service from half a dozen or more different companies. You won't be taking chances on expensive delays waiting for repairs during the busy seasons because we are going to carry a big stock of repairs on hand and any repairs that we might not have we can get for you in a hurry by a phone call to the International Harvester branch house.

Tack this advertisement up in your machine shed so that whenever you need repairs for any of your International machines you will know where to go. Also, you will know where to go when you are in the market for new machines or implements of real quality and the highest operating efficiency.

WILSON vs. Lodge

("Tis sacrilegious to compare them") In a recent editorial, we said "All the world is at peace with Germany except the United States. Suppose each of the other allied countries had possessed a Lodge. Wouldn't this old world have been in a fix?" In its lame reply to this statement, the Republican makes the state-

ment "And what would have happened if all nations had possessed a Woodrow Wilson, and each of those nations should have sent that Woodrow Wilson to make peace? We doubt if they would have agreed before the second coming of the Savior."

From the very principle of the question there is no comparison. Each of the allied countries sent their very best statesmen to Paris for the purpose of making peace and if possible to prepare a plan whereby all future wars might be prevented. France sent her Clemenceau; England, her Lloyd George; America, her Woodrow Wilson; Italy, Japan China and the minor countries were well represented. In a sense these countries did send their Woodrow Wilson, for they sent their leading statesmen. In a sense they did not for none of them had an equal to our own Woodrow. He towered head and shoulders above them all. Take the Republican's statement literally, it is a matter of logic that if all nations had sent a man with the keen foresight, deep understanding, breadth of character and depth of vision of Woodrow Wilson there would have been no dispute whatever and the League of Nations would have been formed much earlier than it was. The thing that did occur was that our representatives headed by Wilson, presented a plan so far superior to that of any

other that it required many weeks for all the nations to fully agree but with minor changes they did finally come to an agreement and all these countries except China and the United States, have ratified the League as it stands. China has declared peace with the Teutons but we the people of the United States are blessed with something the other countries do not possess, a politician (who unfortunately has a strajetical position in our government) who would sacrifice WORLD PEACE for PARTISAN POLITICS.

The Wilsonian principles are builders of peace; the Lodge principles are breeders of war. Woodrow Wilson's name will go down in history as the leading statesman of the twentieth century; the name of Henry Cabot Lodge will sink into oblivion and be forgotten thirty years hence.

Yea, verily, brother we do not consider a man who votes to give a traitor a seat in Congress, a Democrat. Emphatically not. However none of the three Democrats voting to seat Berger had reached such party prominence as to hold the exalted position of floor leader of the National Congress. Representative Mann surprised us, that's all. If Senator Newberry had been a member of the Lower House it might have been expected that his vote would be cast in favor of having no

constitutional right to the seat, for he is almost in the same boat, but oh! Mann!

Georges Clemenceau, better known as "The Tiger of France" has been defeated for the presidency of his country. For many long years he has labored for his people and during the war was considered by the whole world to be the leading statesman of France. Distinctly does the writer remember the admiring manner in which the French people spoke of "Le Premier Clemenceau" but "politics works in a mysterious way its blunders to perform."

Mr. Colby criticizes his Republican associates for having no policy either in domestic legislation or foreign affairs. Senator Lodge will no doubt wish to propose a few reservations to Mr. Colby's statement.

Republicans in Congress have met disaster in their attempts to make political capital out of every public question. They find themselves bankrupt at the very moment when they should have credit with the people.

"DON'T YOU KNOW?"

That every man in Ohio County, is liable for a fine not exceeding \$100.00, and three months imprisonment in the County jail, for failure to procure a license and tag for his dog, by the first day of January, 1920, and you have no excuse as the licenses and tags have been in the hands of the County Clerk for at least three months, so if you have not already procured license and tag for your dog, you had better get busy and get one. To get a license and tag by mail, give the following information and send postage:

Your Post Office address.

Your Precinct.

Breed of dog.

Male or Female.

Color.

Markings.

Age of Dog.

For a male dog send \$1.02 for the first male, and \$2.00 for each subsequent male dog.

For a female dog send, \$3.02 for the first female, and \$4.00 for each subsequent female dog.

No one wants you to pay a fine, but you must get your license and tag, at once, as you are already liable for the penalty.

This sale is going to be one of the biggest money-saving sales we have had. Our merchandise at today's regular prices is 25 to 33 1/2 per cent below today's market price. You can buy merchandise at our regular price for future use and make handsome returns on your investment. Merchandise is high and still on the upward trend at a rapid rate. You may be wondering when merchandise will begin to go down. Not until the supply is greater than the demand. For eight years after our civil war prices were much higher than they are now. Compare our civil war to the great World War and make your calculations as to how long it will take for a complete adjustment of the world's affairs when it took us eight years after our little family row to begin to get normal. Years will come and go, and prices may still soar to higher levels. Everybody must produce their full capacity to create a surplus, and practically nobody is doing it. Supply and demand is the price. Short supply means high prices. The supply grows shorter all the time and the demand is growing all the time. As lower prices in the near future are an impossibility, we want to call your attention to our big collection of

TOBACCO MARKET

Owensboro, Ky.—The amount of money paid to the farmers of the Green River district is nearly half a million more than was paid the farmers during the corresponding time last year, and nearly twice as much as had been paid the farmers during the same period in 1918.

The farmers of the Green River district have to date this year delivered to market 14,462,435 pounds of Pryor for which they received \$2,591,116.098 or an average of \$17.78. They have also sold 1,218,330 pounds of Burley for \$348,151.14, or an average of \$28.58. Last year during the corresponding period they delivered 17,001,570 pounds of Pryor alone, for which they received \$2,481,665.98, or an average of \$14.62. They had also delivered 565,220 pounds of Burley for which they received \$102,540, or an average of \$18.15 per hundred corresponding about ten million

pounds of Pryor were sold over the local floors for \$1,534,366.50 or an average of \$15.97. That season only 131,185 pounds of Burley had been sold for \$26,038.99, or an average of \$19.85. Thus in two years the amount of Burley grown in the county had increased ten fold and the price had nearly doubled.

Sales for Week

Sales over the Owensboro floors during the last week were heavy, but the price was off, the average on 2,461,695 pounds of Pryor being only \$16.13. The sales on Saturday were heavy 569,920 pounds of Pryor having been disposed of for an average price of \$16.36. Good Pryor was considerably stronger, the price at one house having reached \$18.37.

Sales were finished at the Davies County, Farmers, Equity Home, Birk and Field Bros. house. Sales will start Monday at the Owensboro house in the western zone and at the Lancaster house in the east.

At Farmers Home

At the Farmers Loose Leaf House

a good sale was held and some good averages were made. Jack Moseley and John Hurm, of Moseleyville, sold 2,145 pounds of Pryor for \$769.22, or an average of \$35.95, prices ranging from \$15.50 up to \$51 for leaf. O. A. Mackey, of Sebes, sold 1,360 pounds for \$485.97, average \$35.80, prices ranging from \$16.75 to \$57. One basket of 590 pounds brought \$336.30. P. E. Clark, of Stanley, sold 1,735 pounds for \$506.18, average \$29.30, prices ranging from \$25.50 to \$36. George Fisher, of Rome, sold 1,590 pounds for \$426.80, average \$26.74, prices ranging from \$15 to \$36. D. O. Bellwood, of Stanley, sold 965 pounds for \$340.95, average \$35.51, prices \$13 for lugs, \$37 for trash and \$50 for leaf. Will Dockmeyer, of Brown's Valley, sold 515 pounds for \$167.65, average \$32.75, prices from \$20 to \$44. May and Perkins sold 840 pounds for \$273.72, average \$32.62, prices up to \$42.

Mr. O. C. Hunter spent the week with his mother at Krons.

Coughed Night And Day

John Vognue, Elberton, Ga. writes: "Last fall, when my neighbors were down with influenza, I took a severe cold and before I was aware of my condition I was down sick in bed. I coughed night and day and my throat and chest were sore. I got a bottle of Men's Eys and Tar Compound and after eight small doses my condition began to improve. In a few days I was able to get up. In my opinion Foley's is the best cough medicine made." Sold everywhere.—Jan.
